

Total Specialty Drug Management

Customized pharmacy benefit solutions
to meet your needs

Overview

Engolve Pharmacy Solutions offers four levels of specialty pharmacy benefit options. Clients can choose the level that best meets their needs.

We provide specialty pharmacy services through AcariaHealth, an Engolve Solution. AcariaHealth is a national comprehensive specialty pharmacy that provides personalized service and support for patients living with complex conditions.

We offer healthcare solutions through our unique brand of specialty services, focusing on hepatitis C, oncology, multiple sclerosis, rheumatoid arthritis, hemophilia, HIV/AIDS, IVIG, infertility and cystic fibrosis.

Our commitment to helping patients manage their complex, high-cost healthcare is unmatched in the industry. It all starts with a simple premise: the patient comes first.

**Patient Focused.
Solutions Driven.**

● Standard Implementation Time ● Potential for Expedited Implementation

Consulting Services

IMPLEMENTATION TIMELINE

HIGHLIGHTS

- > Pharmacy/medical claim analysis and consulting
- > Medical claim rebates
- > Specialty pipeline impact analysis

FOR CLIENTS

- > Who want quick implementation of specialty solutions
- > Who are locked into a PBM contract that limits specialty carve out opportunities

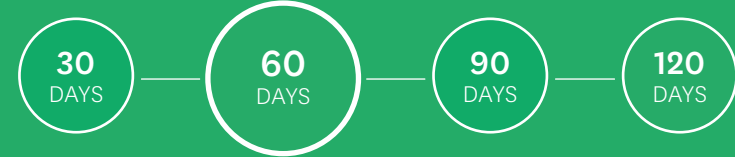

BENEFITS

- > **Proactive consulting** that would not impact existing pharmacy benefit contracts
- > **Insightful analytics** regarding current specialty program and opportunities to manage trend
- > **Objective analysis** on claims data, rebates, existing specialty and benefit programs
- > **Actionable information** on potential program and benefit changes, such as formulary modifications, drug mix/trend (for lower cost drug opportunities), clinical management, site of care, prior authorization changes, off label use, etc.
- > Opportunity to **offset costs** through medical rebates (if not implemented currently)
- > **Rapid implementation** for faster insights, results and cost savings

Distribution Services

IMPLEMENTATION TIMELINE

HIGHLIGHTS

- > Specialty drug distribution
- > Customized clinical programs
- > Copay assistance program
- > Patient-centric model
- > Data analytics and reporting
- > **Plus all consulting services**

FOR CLIENTS

- > Who will use AcariaHealth distribution
- > Who have an existing specialty pharmacy contract, but may have a contractual out-clause or upcoming termination/renewal
- > Who may consider upgrading service in the future

BENEFITS

- > **Exclusive distribution** for specialty pharmacy
- > **Proactive consultation** to manage specialty trend and reduce costs
- > **Insightful analytics** and actionable information for benefit changes, formulary modifications, site of care changes, prior authorizations (PAs), etc.
- > **Quality of care** and case management by nursing team
- > **Patient access** to manufacturer copay assistance programs
- > **Account management** for physicians (provider experience managers)
- > **Specialty account managers** for plan sponsors

Specialty PBM Services

IMPLEMENTATION TIMELINE

HIGHLIGHTS

- > Integrated pharmacy/medical management
- > Specialty claims adjudication and rebate administration
- > Total formulary management
- > Site of care optimization
- > Home infusion network strategies
- > ***Plus all consulting and distribution services***

FOR CLIENTS

- > Who are able to separate specialty PBM management from current vendor (specialty carve-out) via out clause or upcoming renewal/termination
- > Who seek to manage specialty spend across pharmacy and medical
- > Who may consider upgrading service in the future

BENEFITS

- > **Improved overall care**, cost and outcomes for entire specialty pharmacy program
- > **Comprehensive adjudication** or re-adjudication of specialty pharmacy claims
- > **Unified benefit design** with integrated reporting
- > **Patient access** to manufacturer copay assistance programs
- > **Account management** and engagement for physicians
- > **Specialty account managers** for plan sponsors
- > **Insightful analytics** to drive cost savings opportunities

Total Drug Management

IMPLEMENTATION TIMELINE

HIGHLIGHTS

- > Full PBM specialty/traditional services
- > Utilization management programs
- > Comprehensive rebate program
- > Pharmacy/medical data integration and reporting
- > Cost-effective distribution channels
- > Outcome-based clinical programs

FOR CLIENTS

- > Who will implement full-service PBM, including new contract and integrated drug management (specialty and traditional) across all benefits
- > Who seek the most cost-effective distribution across all channels

BENEFITS

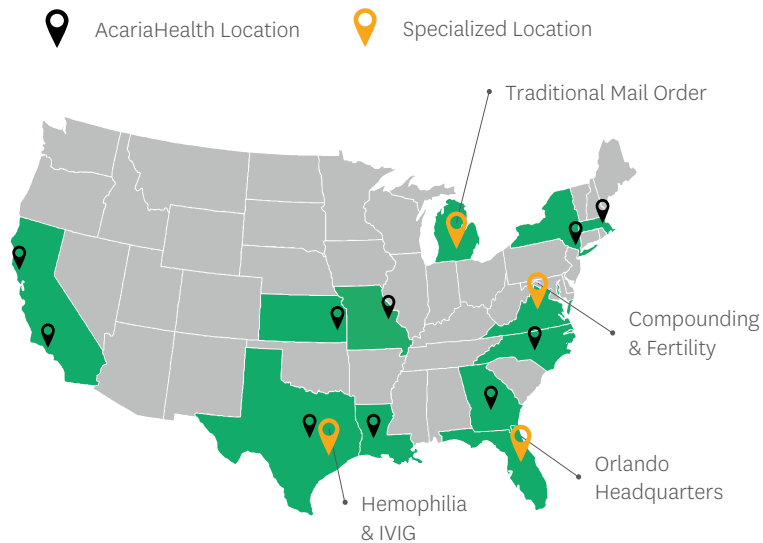

- > **Total drug management**, with integrated benefits, reporting and analytics to reduce overall cost
- > **Highest service level** to most effectively manage drug trend
- > **Unified benefit design** with integrated reporting
- > **Therapy-specific** care management and outcomes reporting
- > **Formulary options** across benefits
- > **Custom clinical programs**, clinical policy and case management
- > **Web-based engagement tools** for patients and providers
- > **Comprehensive account management team**, including clinical and specialty account management for clients, and account management for physicians
- > **Patient copay assistance** program
