

Learn About Your Formulary

Your drug list, also called a formulary, is the list of drugs covered by St. Louis County Department of Health. Your plan with the St. Louis County Department of Health has specific guidelines you must follow to get prescription drug coverage.

You must choose generic medications when they are available. Generic medications have the same ingredients as brand drugs, at lower prices.

You must fill your prescription at participating pharmacies within the St. Louis area:

- > CVS
- > Walmart
- > Sam's Club
- > Dierbergs
- > The Medicine Shoppe
- > Schnucks
- > Beverly Hills Pharmacy

You must get your prescriptions from Department of Health Physicians

- > If a medication is prescribed by a non-panel doctor, a special review is required and can be requested at the number below.

Many drug companies offer programs to help people afford their drugs. We encourage you to ask your doctor about manufacturer assistance programs.

Drugs are listed on the formulary in alphabetical order by name in the appropriate therapeutic category and class.

Medications on the **High Priority Drug List** are covered for **ONLY two 30-day fills per year**.

- > If you are prescribed a High Priority Drug, contact the drug maker to request assistance in getting your medication at reduced or no cost.
- > If you do not take this step, you will pay 100% of the discounted drug cost after getting two 30-day fills.
- > The High Priority Drug List includes:
 - Diabetes drugs: Lantus, Novolog and Novolin
 - Asthma Inhalers: Atrovent, Spiriva, Ventolin, Proair, Respiclick, Symbicort, Advair, Flovent and Proventil

Online Tools

Access your pharmacy benefit information through our portal, [Members.EnvolveRx.com](https://members.envolverx.com), and mobile app, [EnvolveRx](#). Our digital tools allow you to:
